DETAILED ACTION

Allowable Subject Matter

1. Claims 8-11 and 14 are allowed over the prior art of record.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:

The primary reason for allowance is applicants' filing of a 1.132 affidavit by the inventor which evidence that the mesoporous silica of the Chaudhari reference would not necessarily exhibit the claimed alkaline resistance property recited in independent claim 8. Further, the affidavit demonstrates a direct comparison between the alkaline resistance properties of the mesoporous silica made by the processing steps of applicants' invention and an the processing steps in Chaudhari wherein the Zr source is not provided until after the initial synthesis gel is formed. This direct comparison shows a clear difference in the alkaline resistance property.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
